Professional Summary

Aspiring Data Scientist and Artificial Intelligence undergraduate with hands-on experience in machine learning, data analysis, and manual testing. Skilled in building predictive models, analyzing datasets, and designing structured test cases. Seeking an entry-level opportunity to apply analytical and technical skills in a data-driven environment.

Technical Skills

- **Programming:** Python
- **Data Analysis:** Pandas, NumPy , Data Preprocessing
- **Machine Learning:** Scikit-learn
- **Web Development:** HTML, CSS
- **Database:** SQL
- **Cloud:** AWS
- **Testing:** Manual Testing, Automation Testing, Test Case Design, RTM

Area of Interest

- Data Science
- Machine Learning
- Artificial Intelligence
- Data Analytics
- Software Testing

Projects

AI Agent Builder

- Developed a modular AI agent system using LLM concepts
- Integrated tool usage, memory handling, and task automation

Manual Testing – Redmi Website

- Designed and executed test cases for functionality and edge cases
- Created Requirement Traceability Matrix (RTM) and test reports
- Identified and reported bugs to improve system reliability

Coupon Purchase Prediction Using Machine Learning

- Built a predictive model using Python and machine learning algorithms
- Analyzed customer data to forecast coupon purchase behaviour

Internship Experience

Data Analyst Intern – Code Alpha

- Performed web scraping and data preprocessing
- Analyzed datasets to extract insights for decision-making

Frontend Developer Intern – Nutz Technologies

- Developed UI components using HTML and CSS
- Improved website responsiveness and user experience

Education

Bachelor of Technology – Artificial Intelligence and Data Science

2023-2027

Karpagam Institute of Technology, Coimbatore

Certifications

AWS Cloud Practitioner (CLF-C02)

Machine Learning with Python

Python Essentials

AWS Academy Practitioner

SQL
