Summary

Aspiring Machine Learning and Data Science enthusiast with strong knowledge in Python, Machine Learning, AWS Cloud Foundations, Software Testing, and SQL. Familiar with HTML and experienced in building AI-based applications using Machine Learning and NLP techniques. Seeking an ML Internship and AWS-related opportunities to apply data-driven solutions, enhance technical skills, and contribute to real-world projects.

Education

B.Tech Artificial Intelligence and Data Science

Karpagam Institute of Technology, Coimbatore

CGPA: 7.13

Projects

Project 1: Manual Testing for Rapido Application

Tested the Rapido application to ensure all features work correctly and provide a smooth user experience.

Created test cases, prepared RTM and reports, and identified defects to maintain application quality.

Project 2: Calories Burn Prediction Using Machine Learning

Developed a machine learning model to predict calories burned during exercise using user data like age, weight, and activity type.

Improved accuracy by applying data preprocessing, feature engineering, and evaluating the model using standard metrics.

Technical Skills

Programming: Python

Machine Learning & Data Science: Model training, NLP, Data Preprocessing

Cloud: AWS Cloud Foundations

Software Testing: Manual Testing, Basic Automation Testing

Database: SQL

Certifications

- **AWS Certified Cloud Practitioner – Amazon Web Services (AWS)**
- Manual Software Testing Certification – Coursera
- SQL for Data Science Certification – Coursera
- IBM – Machine Learning Fundamentals, Deep Learning Fundamentals, Data Visualization & Analysis
- LinkedIn -AI Fundamentals

Soft Skills

Team leadership Communication Adaptability Problem solving Analytical thinking
